# AUTOMOTIVESTORAGE

Every motor trade application, from small service areas to complete parts distribution centres can benefit from our comprehensive range of Automotive Storage Solutions. Combining tried and tested products, such as Longspan and Stormor Euro shelving, with an number of specially designed components our range provides:

- Fast, easy access to tools and components, boosting productivity
- Effective stock control and monitoring
- Maximum use of available space, improving the working environment and reducing overheads.

**FOR FURTHER INFO PLEASE CALL 01246 819 970**

## STORMOR EURO SHELVING

Ideal for storing smaller parts and components, Stormor Euro shelving is the UK's leading industrial shelving range. In environments where space is limited, Stormor Euro Shelving gives you the capacity to store more than you'd have thought possible. If required, Stormor Euro shelving can be configured as mobile or two-tier systems which add greatly to the storage capability.

## LONGSPAN SHELVING

Heavy weight, large or awkward items are stored using Longspan shelving, the ultimate versatile heavy duty storage system. Specialist accessories make Longspan the ideal choice for storing body panels, windscreens, tyres and exhausts.
