Discover versatile shelving solutions designed for light, medium, and heavy-duty needs, perfect for any space and every application.

Find the Perfect Shelving Solution

Transform your space instantly with shelving that works as hard as you do. The right choice doesn't just organize—it maximizes efficiency and unlocks smarter storage possibilities.

Our shelving solutions are built for every environment—whether light, medium, or heavy-duty. From quick-assembly knock-together units to fully adjustable, bolt-less systems, we deliver flexibility and strength for all your storage needs.

Choose from our versatile modular systems—Stormor, Euro, and Longspan—or opt for robust standalone solutions. Plus, enjoy a complimentary site survey from our expert team to uncover storage possibilities you may never have considered.

Every shelving unit we create is finished with our advanced ActiveCoat antimicrobial powder coating—helping maintain a cleaner, safer workplace by reducing the risk of bacterial cross-contamination.

From offices and schools to libraries, medical centres, stockrooms, and warehouses—our shelving systems deliver unmatched versatility. What truly sets us apart is our market-leading quality, built on decades of manufacturing expertise and innovation.

Unlock the full potential of your space with MPC's smart shelving solutions.

Our shelving systems

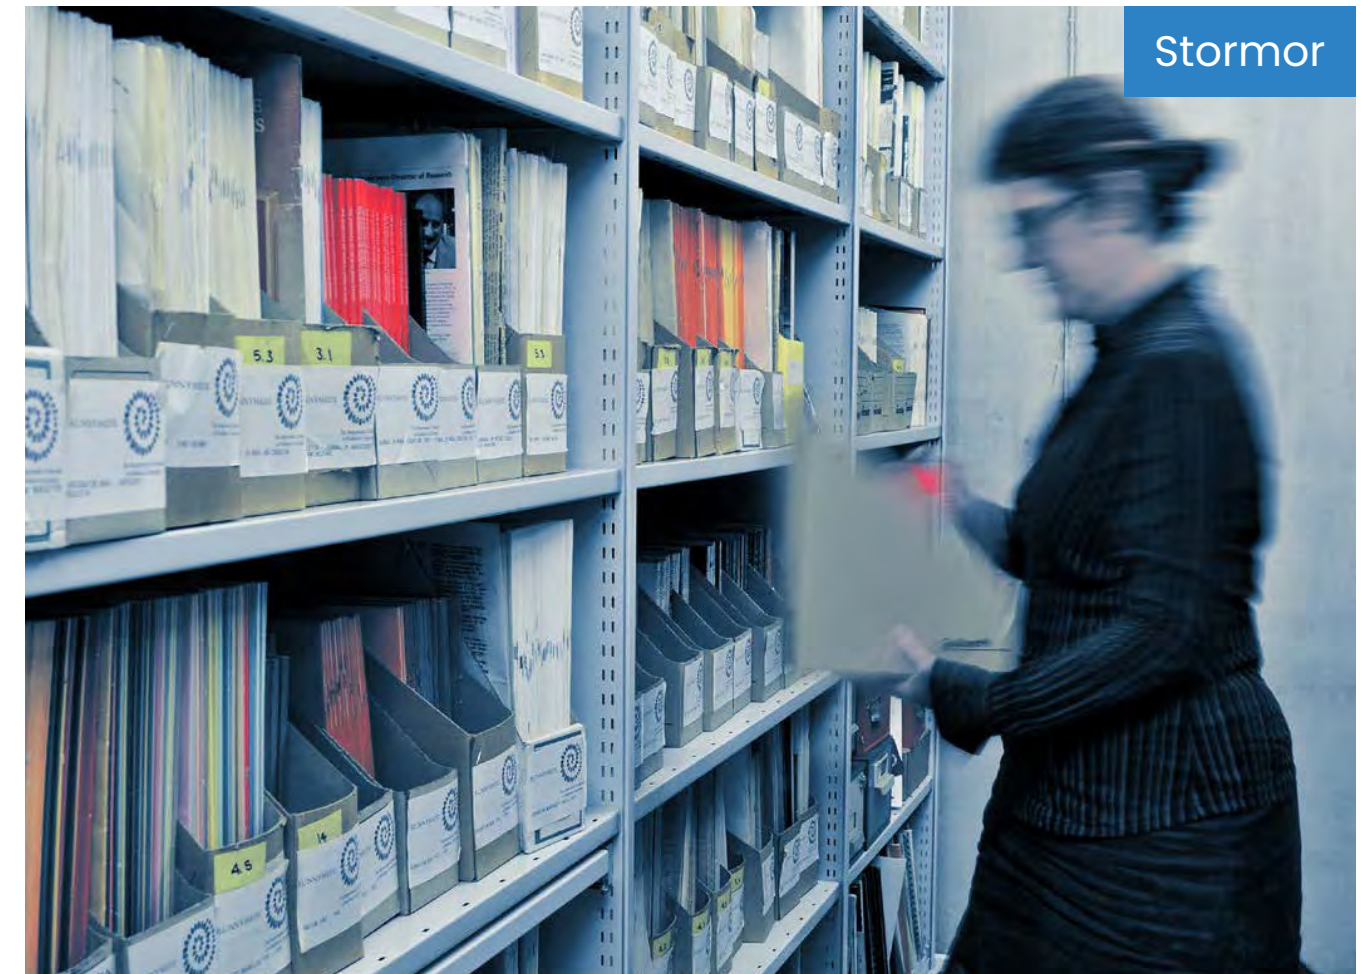

Explore MPC's extensive range of shelving solutions—perfect for every space and every need. From light and medium-duty options for offices, storerooms, and garages to heavy-duty systems built for industrial environments, we deliver strength, flexibility, and smart design. Whatever your storage challenge, MPC has the solution to maximize your space.

Stormor

Stormor shelving offers a smart, versatile solution for light to medium-duty storage. With interchangeable frames, shelves, and accessories, it adapts effortlessly to your changing needs. Available in a range of stylish colours and finished with ActiveCoat antibacterial protection, Stormor ensures a cleaner, safer environment. Its extensive accessories make future adjustments or relocations simple—making Stormor a long-term investment. Plus, it integrates seamlessly with our mobile systems for maximum flexibility.

Euro Shelving

Engineered for strength and flexibility, Euro shelving is the ideal solution for medium to heavy-duty storage. Its modular design allows you to create tailored bays that adapt as your needs change—perfect for dynamic environments. Each shelf offers exceptional load-bearing strength and rigidity, secured with reliable clips to prevent accidental dislodgement. With a wide range of accessories, future adjustments or relocations are simple and cost-effective. Finished in stylish colours with ActiveCoat antibacterial protection, Euro shelving combines durability, hygiene, and smart design. For maximum efficiency, it can even be configured as a multi-tier structure or integrated with other systems.

Stormor

Euro

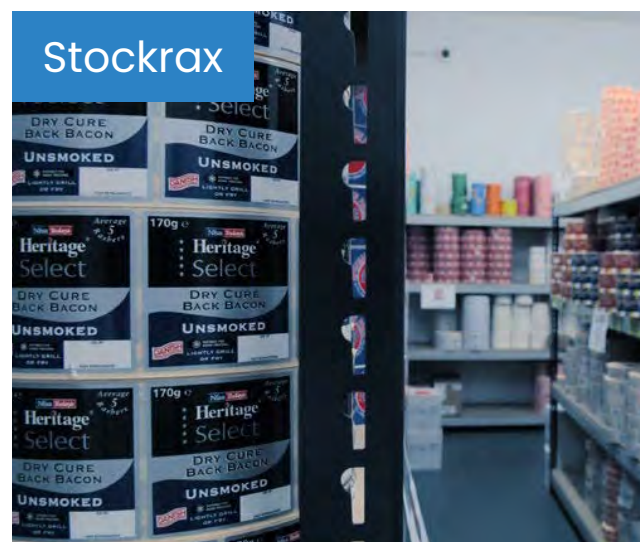

Customised storage systems that adapt to your unique requirements.

Longspan

Longspan Shelving

Longspan shelving—also known as widespan—is the ultimate solution for storing heavy, large, or bulky items, where inventory changes frequently. Its robust beam system creates extra-wide bays for maximum accessibility, outperforming traditional steel shelving. Choose from a variety of shelf options, including steel, mesh, chipboard, and timber, to suit your needs. Designed for flexibility, Longspan can be tailored to your exact requirements, making future adjustments or relocations simple and cost-effective. Available in a range of modern colours, it can also be configured as a multi-tier structure or integrated seamlessly with our mobile systems—future-proofing your storage for years to come.

Stockrax

Stockrax Shelving

Stockrax is the smart, cost-effective solution for medium to heavy-duty storage. It's simple, knock-together design offers unrestricted access from all sides and assembles quickly for maximum convenience. Built from durable steel, Stockrax delivers strength and reliability without sacrificing style—available in a range of colours and complemented by 18mm chipboard shelves as standard, with other options to suit your needs. Whether you're looking to increase storage capacity or add functionality, Stockrax offers garment hanging options and integrates seamlessly with workstations and benches, making it the perfect choice for everyday storage challenges

Mobile

Mobile Shelving Systems

Maximize your storage capacity and reclaim valuable space with our high-density mobile shelving solutions. Designed for offices, archives, warehouses, and other dynamic environments, these systems can boost storage efficiency by up to 70% compared to traditional static shelving. Every mobile shelving unit is custom-built to suit your space, storage type, and operational needs—whether you require floor-mounted, track, or trackless options. Our bespoke designs ensure flexibility and scalability as your business grows. Plus, we offer PUWER-compliant service and maintenance contracts to keep your system running smoothly and safely for years to come

Tiered Structures

Tiered Storage Structures

capacity on a limited footprint. These systems offer a cost-effective alternative to mezzanine floors, helping you extend existing spaces without major construction. With options ranging from single-level to multi-tier structures of up to five levels, you can utilize the full height of your building and increase storage capacity by up to 300% within the same footprint—or reduce new build size by as much as 75%.

Our tiered systems provide full access to all shelves and SKUs, enabling systematic organization and streamlined picking processes. Every solution is custom-built to your needs and fully scalable, ensuring it adapts as your business grows. Future-proof your storage with efficient, space-saving tiered structures that combine flexibility, accessibility, and smart design.

Maximize space, boost organization,
and streamline operations with our
smart shelving solutions.

Not just shelving

Workbenches

Upgrade your workspace with our durable, general-purpose workbenches, designed for medium-duty applications. Available in multiple sizes and a wide range of colours, these benches combine strength with flexibility. Choose from various worktop options and add extra shelving levels above or below for maximum storage efficiency. Built for easy assembly and future adaptability, our workbenches can also be customised with accessories to improve tool storage and accessibility, helping you streamline operations and boost productivity.

Shelving Accessories

Enhance your storage system with our wide range of shelving accessories designed for maximum efficiency and flexibility. From dividers and pick bins to garment rails, brackets, and pull-out drawers, our accessories make it easy to customize your shelving for any application. Built to simplify your workflow and keep your business running smoothly, these solutions help you organize smarter and save time.

We're constantly innovating with new accessories, developed using first-hand industry insights to solve real-world storage challenges. Whatever your sector, our accessories deliver practical, space-saving solutions that adapt as your needs evolve.

Storage solutions

Commercial Office

Efficient document storage is essential for maintaining a professional, organized, and productive office environment. Our commercial office shelving systems are designed to help you store and access documents quickly, improving workflow and maximizing space. With smart, space-saving designs and customizable options, you can create a storage solution that keeps your office running smoothly and looking its best.

Even in today's digital world, secure document archiving remains essential for many organizations. From paper files to individual items, having the right office storage system ensures efficiency and compliance.

Our mobile shelving systems can increase your storage capacity by up to 70%, giving you more room to work with. This extra space opens new possibilities—whether

it's downsizing your office footprint, accommodating a growing team, or simply creating a cleaner, more organized environment.

Every solution we design is built to save time, space, and money, and can be finished in a choice of colours with a range of custom options to match your brand and workflow.

Healthcare

Every healthcare environment comes with unique challenges—limited space, strict hygiene standards, and the need for enhanced security and control. Our healthcare shelving systems are designed to maximize storage capacity while maintaining compliance and cleanliness. With ActiveCoat antimicrobial protection, customizable configurations, and secure options, we help you create a safer, more organized space for medical supplies, records, and equipment.

Whether you're storing patient records, uniforms for healthcare staff, or securing medication in pharmacies, our mobile and static shelving systems are designed to make access and storage easier, safer, and more efficient.

Every unit is finished with ActiveCoat antimicrobial powder coating, a silver ion-based technology that reduces

bacteria on treated surfaces by 99.9% within just two hours, ensuring compliance with strict hygiene standards. For specialized needs, we also provide HTM71-compliant shelving, engineered to accommodate medical trays with a high load capacity—perfect for hospitals, clinics, and pharmaceutical environments.

Our mobile and static shelving systems are expertly designed to make storage and access easier, safer, and more efficient.

Automotive

No matter which part of the automotive industry you operate in—manufacturing, repair, or retail—we provide specialized storage solutions designed to boost efficiency, protect valuable stock, and enhance productivity. Our systems are engineered for durability and flexibility, helping you organize tools, parts, and components with ease while maximizing your available space.

Our static, tiered, and mobile shelving systems are engineered to store everything from lubricants and hubcaps to tyres and body panels—making them ideal for dealerships, workshops, production lines, and motor factories. In the automotive industry, having stock that is securely stored and quickly accessible is critical for smooth operations.

Every business has unique layout challenges, which is why our solutions are fully customizable. Choose from a wide range of versatile shelving products that can be configured to meet your exact requirements without sacrificing valuable operational space. With flexible, well-organized storage systems, you can streamline stock management, improve part tracking, and optimize picking processes—helping you boost efficiency and productivity across your entire operation.

Archives

Whether you need high-density mobile shelving to reduce floor space or multi-tier structures to utilize vertical height, our archive solutions are built for efficiency, accessibility, and long-term performance.

When staff or visitors need frequent access to archives, static shelving systems provide the ideal solution for easy organization and quick retrieval. For archived documents with infrequent access, our high-density mobile shelving systems are a cost-effective way to save space and improve efficiency.

In buildings with high ceilings, tiered shelving structures can double your storage capacity without expanding your footprint. These multi-level systems utilize vertical space and include walkways supported by the shelving—offering a smarter, more economical alternative to mezzanine floors. While specialist equipment may be required for upper levels, this solution delivers long-term, cost-effective storage for large volumes of documents.

Museums and heritage

Preserve history with innovative storage solutions that combine security, flexibility, and long-term protection for artifacts.

We partner with curators and conservators to deliver tailored storage solutions for delicate antiques and artifacts of all sizes. Our expert team designs bespoke shelving systems that protect your collection for future generations while optimizing space and accessibility.

Our Stormor Duo shelving meets BS 4971:2017 standards, ensuring compliance with best practices for archive and heritage preservation. Every solution balances functionality with aesthetics, available in metal or wood finishes for a professional look. For valuable artworks, we offer ceiling-suspended or self-supporting mesh rack systems with secure accessories—perfect for museums, galleries, and heritage institutions.

Retail

Optimize Your Supply Chain with Versatile Shelving—from Warehouse to Storefront.

Boost your stockroom efficiency with our tailor-made shelving systems designed to maximize capacity, improve picking rates, and reduce damage to valuable stock. Our extensive range of static and mobile racking—available as single or multi-tier configurations—offers flexibility for every retail environment.

From department stores and high-street shops to supermarkets, boutiques, and the food industry, we create storage solutions that help businesses optimize space, streamline operations, and deliver exceptional customer service.

Industry

Smart Storage Systems for Manufacturing, Engineering, and Service Industries.

From upgrading existing facilities to full project management for new warehouse installations, our expert team delivers customized storage solutions that meet the demands of even the most sophisticated manufacturing environments.

With an extensive range of industrial shelving and racking systems, we design and install bespoke, integrated solutions that optimize space, improve workflow, and ensure all your storage requirements are met—efficiently and cost-effectively.

E-commerce

Smart Storage Solutions for E-Commerce—Boost Speed, Accuracy, and Space Utilization.

Optimizing your fulfillment design and ensuring the correct throughput of goods is essential to meeting customer expectations and growing your business. Put simply: the right product, picked and delivered—fast.

Today's warehouse landscape is evolving. Retailers can choose from micro-fulfillment hubs for instant delivery to mega-sheds for just-in-case storage and 3PL solutions. With so many options, a one-size-fits-all approach can lead to missed opportunities.

That's where MPC Systems comes in. With decades of experience in bespoke integrated storage solutions, we

help businesses reduce operating costs, improve inventory control, and maximize picking efficiency—all while future-proofing your system. Our products integrate seamlessly with warehouse management systems (WMS) for a smarter, more connected operation.

Whether you need bulk stockroom storage, individual pick-from-store solutions, garment hanging, flat-pack storage, or click-and-collect systems, we offer a wide range of modular, scalable shelving solutions designed to support your current logistics and grow with future demand
